

GROUP TRAVEL INSURANCE

Group Travel insurance policy is often tailor made for businesses whose employees undertake frequent international business travel.

The policy covers specified employees or all employees (if arranged on blanket basis) up to the agreed maximum duration per trip.

The premium is adjusted based on declaration of actual number of trips at the end of the annual policy period. The employer need not declare each trip before it is undertaken. Hence, the policy offers automatic protection for any trip within the agreed scope of cover.
